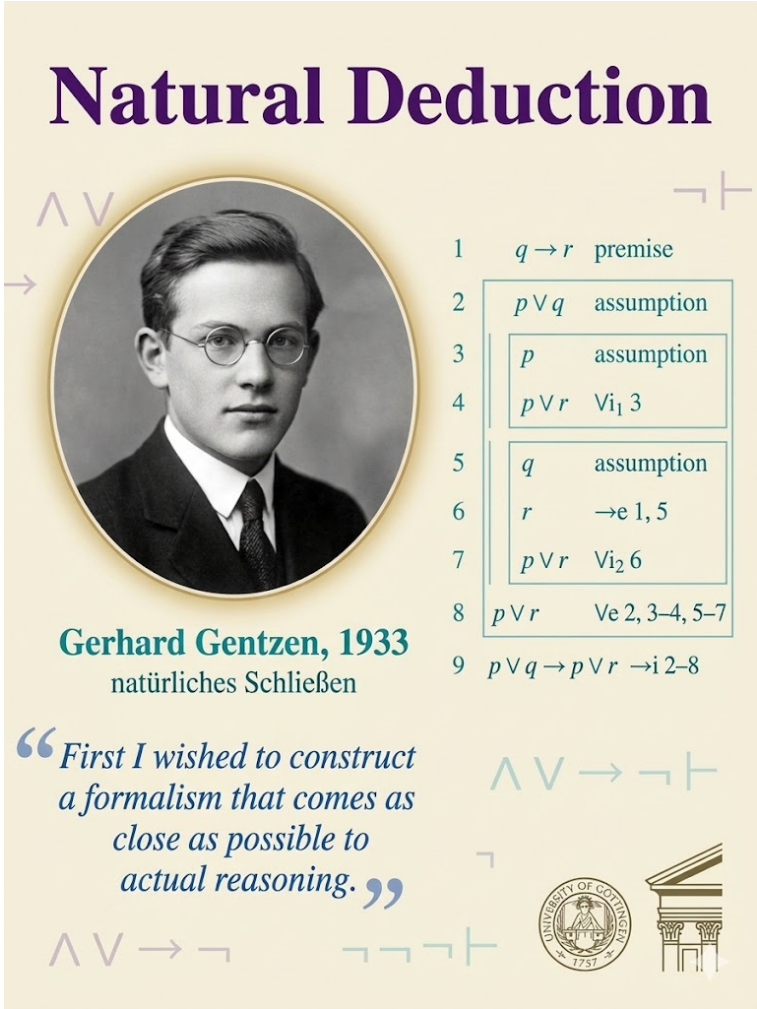
“再回到语法”

“再回到语法”

暂时**忘掉语义**!!! 一起来研究公式之间的**推导**关系

命题逻辑的自然推理 (演绎; 推演) 系统



$$\boxed{\dfrac{\alpha \qquad \beta \qquad \ldots \quad (\text{前提})}{\gamma \quad (\text{结论})} \qquad (\text{规则名称})}$$

$$\{\alpha, \beta, \ldots\} \vdash \gamma$$

从上往下看: 展示证明过程

$$\boxed{\dfrac{\alpha \qquad \beta \qquad \ldots \quad (\text{前提})}{\gamma \quad (\text{结论})} \quad (\text{规则名称})}$$

$$\{\alpha, \beta, \ldots\} \vdash \gamma$$

从上往下看: 展示证明过程

$$\boxed{\dfrac{\alpha \qquad \beta \qquad \ldots \quad (\text{前提})}{\gamma \quad (\text{结论})} \quad (\text{规则名称})}$$

$$\{\alpha, \beta, \ldots\} \vdash \gamma$$

从下往上看: 提供证明思路

	introduction	*elimination*
$\wedge$	$\dfrac{\phi \quad \psi}{\phi \wedge \psi}\,\wedge\mathrm{i}$	$\dfrac{\phi \wedge \psi}{\phi}\,\wedge\mathrm{e}_1 \qquad \dfrac{\phi \wedge \psi}{\psi}\,\wedge\mathrm{e}_2$
$\vee$	$\dfrac{\phi}{\phi \vee \psi}\,\vee\mathrm{i}_1 \qquad \dfrac{\psi}{\phi \vee \psi}\,\vee\mathrm{i}_2$	$\dfrac{\phi \vee \psi \quad \boxed{\begin{array}{c}\phi\\ \vdots\\ \chi\end{array}} \quad \boxed{\begin{array}{c}\psi\\ \vdots\\ \chi\end{array}}}{\chi}\,\vee\mathrm{e}$
$\rightarrow$	$\dfrac{\boxed{\begin{array}{c}\phi\\ \vdots\\ \psi\end{array}}}{\phi \boxed{\rightarrow} \psi}\,\rightarrow\mathrm{i}$	$\dfrac{\phi \quad \phi \boxed{\rightarrow} \psi}{\psi}\,\rightarrow\mathrm{e}$
$\neg$	$\dfrac{\boxed{\begin{array}{c}\phi\\ \vdots\\ \bot\end{array}}}{\neg\phi}\,\neg\mathrm{i}$	$\dfrac{\phi \quad \neg\phi}{\bot}\,\neg\mathrm{e}$
$\bot$	(no introduction rule for $\bot$)	$\dfrac{\bot}{\phi}\,\bot\mathrm{e}$
$\neg\neg$		$\dfrac{\neg\neg\phi}{\phi}\,\neg\neg\mathrm{e}$

$\wedge$

$$\frac{P \qquad Q}{P \wedge Q} \quad (\wedge\text{-intro})$$

$\wedge$

$$\frac{P \qquad Q}{P \wedge Q} \quad (\wedge\text{-intro})$$

$$\frac{P \wedge Q}{P} \quad (\wedge\text{-elim-left})$$

$\wedge$

$$\frac{P \qquad Q}{P \wedge Q} \quad (\wedge\text{-intro})$$

$$\frac{P \wedge Q}{P} \quad (\wedge\text{-elim-left})$$

$$\frac{P \wedge Q}{Q} \quad (\wedge\text{-elim-right})$$

“∧” 推理规则的应用

$\vee$-elim 推理规则的应用 (请自行练习)

$$(p \wedge q) \vee (p \wedge r) \vdash p \wedge (q \vee r)$$

$\neg$-elim

Definition (Contradiction ($\bot$; *Falsum*, *Falsehood*))

$\bot$ is a special formula of the form $\alpha \wedge \neg\alpha$ or $\neg\alpha \wedge \alpha$, where α is any formula.

$\neg$-elim

Definition (Contradiction ($\bot$; *Falsum*, *Falsehood*))

$\bot$ is a special formula of the form $\alpha \wedge \neg\alpha$ or $\neg\alpha \wedge \alpha$, where α is any formula.

$$\frac{\alpha \qquad \neg\alpha}{\bot} \quad (\neg\text{-elim})$$

$\neg$-elim

Definition (Contradiction ($\bot$; *Falsum*, *Falsehood*))

□

	introduction	*elimination*
$\wedge$	$\dfrac{\phi \quad \psi}{\phi \wedge \psi}\,\wedge\mathrm{i}$	$\dfrac{\phi \wedge \psi}{\phi}\,\wedge\mathrm{e}_1 \qquad \dfrac{\phi \wedge \psi}{\psi}\,\wedge\mathrm{e}_2$
$\vee$	$\dfrac{\phi}{\phi \vee \psi}\,\vee\mathrm{i}_1 \qquad \dfrac{\psi}{\phi \vee \psi}\,\vee\mathrm{i}_2$	$\dfrac{\phi \vee \psi \quad \boxed{\begin{array}{c}\phi\\ \vdots\\ \chi\end{array}} \quad \boxed{\begin{array}{c}\psi\\ \vdots\\ \chi\end{array}}}{\chi}\,\vee\mathrm{e}$
$\rightarrow$	$\dfrac{\boxed{\begin{array}{c}\phi\\ \vdots\\ \psi\end{array}}}{\phi \rightarrow \psi}\,\rightarrow\mathrm{i}$	$\dfrac{\phi \quad \phi \rightarrow \psi}{\psi}\,\rightarrow\mathrm{e}$
$\neg$	$\dfrac{\boxed{\begin{array}{c}\phi\\ \vdots\\ \bot\end{array}}}{\neg\phi}\,\neg\mathrm{i}$	$\dfrac{\phi \quad \neg\phi}{\bot}\,\neg\mathrm{e}$
$\bot$	(no introduction rule for $\bot$)	$\dfrac{\bot}{\phi}\,\bot\mathrm{e}$
$\neg\neg$		$\dfrac{\neg\neg\phi}{\phi}\,\neg\neg\mathrm{e}$

Some useful derived rules:

$$\frac{\phi \to \psi \quad \neg\psi}{\neg\phi}\ \text{MT} \qquad\qquad \frac{\phi}{\neg\neg\phi}\ \neg\neg\text{i}$$

$$\frac{\boxed{\begin{array}{c}\neg\phi\\ \vdots\\ \bot\end{array}}}{\phi}\ \text{PBC} \qquad\qquad \frac{}{\phi \vee \neg\phi}\ \text{LEM}$$

连这些推理规则也一并忘却吧!!!

使用命题逻辑进行推理

某公司要从赵、钱、孙、李、吴 5 名员工中选派某些人出国考察。由于某些不可描述的原因, 选派要求如下:

(1) 若赵去, 钱也去;
(2) 李、吴两人中必有一人去;
(3) 钱、孙两人中去且仅去一人;
(4) 孙、李两人同去或同不去;
(5) 若吴去, 则赵、钱也去;
(6) 只有孙去, 赵才会去。

(1) $Z \to Q$;
(2) $L \vee W$;
(3) $(Q \wedge \neg S) \vee (S \wedge \neg Q)$;
(4) $(S \wedge L) \vee (\neg S \wedge \neg L)$;
(5) $W \to Z \wedge Q$;
(6) $Z \to S$。

请使用形式化推理的方法帮该公司判断应选哪些人出国考察。

Thank You!
